EVA TANGUAY.

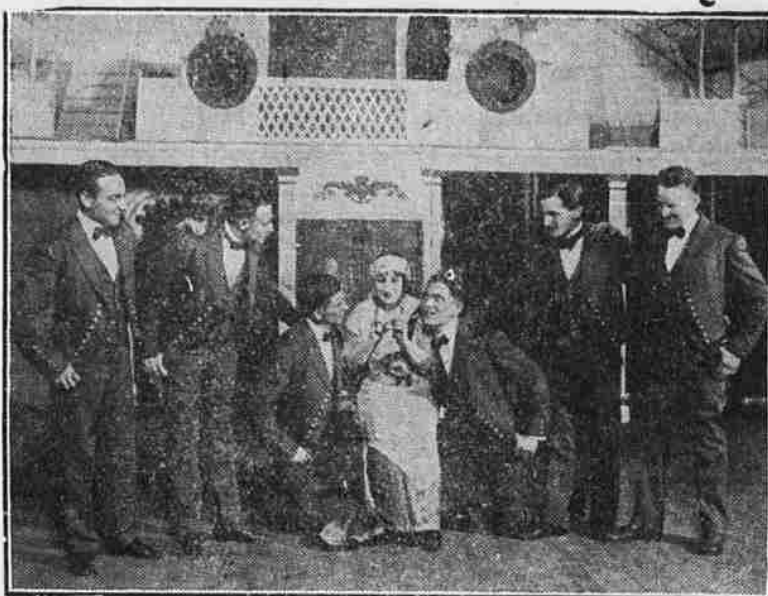

Eva Tanguay is unquestionably the most remarkable and at the same time the most unique personage upon the American stage. It is only a few short years since she was in obscurity, but she was full of originality, perseverance and ambition, and from the day she first trod before the footlights until she attained stellar honors, her one ambition was to become the most famous of stars. Today Miss Tanguay has not only attained that ambition, but she has become the highest salaried artiste in vaudeville, and at the same time its most popular exponent. Miss Tanguay holds the business record for every vaudeville theater in which she has appeared, and to show just how popular she is in New York, she was awarded a costly diamond medal in competition with some of the best known variety stars, as being vaudeville's most popular favorite.

Miss Tanguay has just inaugurated her second road tour at the head of her own company, which she terms "Volcanic Vaudeville," and will appear at the

Auditorium Theater, Toledo, Sunday night and Monday matinee and night, Oct. 26 and 27.

Supporting the cyclonic comedienne for her coming engagement are ten big vaudeville acts, selected by Miss Tanguay with extreme care, and so arranged on the program as to provide, in conjunction with the star, a vaudeville performance of the highest type.

Special theater cars for the Tanguay engagement will be run on all interurban lines entering Toledo.

"MUTT & JEFF" IN A NEW PLAY AT THE VALENTINE THEATER.

A solid week of riotous fun and frolic will be started when Bud Fisher's now nationally famed cartoon characters, "Mutt & Jeff," reappear at the Valentine theater, Sunday matinee and night, Oct. 26. The musical farce, all new, is called "Mutt & Jeff in Panama."

Gus Hill has given the new book a sumptuous production from every point of view. He has had a dazzling new set of spectacular scenery painted with some very startling mechanical effects and genuine dramatic thrills. New musical score and lyrics are furnished by Leo Edwards and the "funny business" is, of course, from the fertile brain of Bud Fisher, who knows better than anyone else what his brain folks are capable of.

The offering, though new, is not in its experimental stages, as it had a thorough tryout last season under the title of "Mutt & Jeff Special." Its reception was simply an innovation, but in spite of that fact, Mr. Hill spent his entire summer vacation perfecting the details of a new edition of the play, which enables him to offer an entertainment absolutely perfect in every respect.

"Mutt & Jeff" holds more records for phenomenal business than any other two attractions in the history of theatrical entertainment.

For its third season, instead of reducing the expenses as is usual with some managers, Mr. Hill has made greater financial outlays than on either or both of his former productions.

Nothing Can Undermine It in Perrysburg.

People are sometimes slow to recognize true merit, and they cannot be blamed, for so many have been humbugged in the past. The experience of hundreds of Perrysburg residents, expressed publicly through newspapers and other sources, places Doan's Kidney Pills on a firm foundation here.

Edward Roberts, farmer, Fifth St., Perrysburg, Ohio, says: "I had trouble from my back and kidneys and I suffered from a dull, throbbing ache through my limbs. ## Five Solid Reasons

**IVE** solid reasons why each farm needs a manure spreader are these, in the words of a farmer who has devoted much time to correct soil-feeding. 1. It saves disagreeable and hard work. 2. It pulverizes and mixes the manure mass. 3. It distributes manure evenly over the field, insuring a good, even stand of grain. 4. It prevents loss of nitrogen through fermentation or leaching in the pile when manure is hauled directly from the stable. 5. Indirectly, the ease with which it can be handled encourages the owner to care for the manure and distribute it on the fields carefully instead of wasting it.

## I H C Manure Spreaders

will work uncomplainingly for years making profits for the owners. You will find them all styles and sizes, high and low, endless apron or reverse.

I H C manure spreaders are exceedingly durable, strong, correctly built to stand all conditions and all strains they may meet. Each feature has its purpose. Up hill or down or cutting corners, they spread all kinds of manure evenly, in a light or heavy coat at the will of the driver. The beater drive is strong and simple, beater teeth are square and chisel pointed to pulverize the manure, and the large diameter of the beater prevents winding. The rear axle, carrying a large percentage of the load, insures ample tractive power. But see all these things yourself at your local dealer's. Find your choice in the I H C line.
